Specification

1. The disclosure is objected to because of the following informalities: data provided under CROSS-REFERENCE TO RELATED APPLICATIONS is incomplete. Please fill out data in blank areas. Appropriate correction is required.

Drawings

2. The drawings are objected to because references of blank boxes in Figs. 1, 3, 7 and 8 are not labeled. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections – 37 CFR 1.75(a)

3. Claims 17-41 are objected to under 37 CFR 1.75(a) for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 17:

The term "the scalar product", line 8, should be changed to -- a scalar product --.

In claim 25:

The term "the scalar product", line 7, should be changed to -- a scalar product --.

In claim 33:

The term "the scalar product", line 7, should be changed to -- a scalar product --.

In claim 36:

The term "the scalar product", line 10, should be changed to -- a scalar product --.

Claims 18-24, 26-32, 34, 35 and 37-41 fall with their respective parent claim.

4. This application is in condition for allowance except for the above matters. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

5. Claims 17-41 would be allowable if rewritten or amended to overcome the objection(s) under 37 CFR 1.75(a), set forth in this Office action.

Claims 17-41 are allowable over the prior art of record because the prior art of record, considered in combination or individually, fails to suggest or fairly teach a combination of all of limitations as particularly recited in each of claims 17, 25, 33 and 36. Claims 18-24, 26-32, 34, 35 and 37-41 are allowable with their respective parent claim.

Cited References

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references relate to an data recording medium and/or device for indicating on a data medium a sector references by word consisting of bytes that each include number of bits.
